Decentraland is another Metaverse candidate that grapples with this very issue. Dave Carr of the Decentraland Foundation tells me that the founders decided that “rather than have these environments be controlled by central bodies, they should have a decentralised structure and be open to everyone to own and govern.” From economic matters, to content moderation and even the maintenance of its servers, Decentraland’s user base dictates its entire policy course through regular votes.

The games themselves are usually kid-friendly, although some can be scary, and the chat filters in every game do a great job of filtering out any language that could be deemed offensive for younger eyes.

On the company’s most recent earnings call, Roblox co-founder and CEO Dave Baszucki said that, in the long term, the Switch, PlayStation, and Quest all make “perfect sense for Roblox” but that “we won’t share any ship dates for them.” So it sounds like Roblox could come to your Switch someday, but it’s hard to say exactly when.
